WORK EXPERIENCE

Florida International University   **August 2022 – Present**
Web Developer & IT Technician   *Miami, FL*
- Developed and maintained 100 class schedules, and website content applying HTML, CSS, and JavaScript, ensuring cross-browser compatibility and accessibility standards compliance.
- Familiarized with front-end frameworks and libraries, such as React, to enhance development efficiency and leverage pre-built components.
- Utilized Cascade CMS to efficiently update and manage website content, ensuring accurate and up-to-date information for students, faculty, and staff.
- Collaborated with university's IT team to provide comprehensive technical support, resolving up to 20 support tickets per day and ensuring smooth operation of Navigate CRM, hardware, and network-related issues.

Necessary Behavior   **May 2022 – July 2022**
Marketing Analyst   *Miami, FL*
- Implemented Tableau to compose detailed reports on social media performance, encompassing audience demographics, engagement metrics, and content analysis, resulting in a significant 15% increase in follower growth and a notable 20% increase in content shares.
- Co-organized and led a cross-functional collaboration with marketing and content creation teams to align social media campaigns with the company's social justice mission, resulting in a significant 25% increase in positive brand perception among target audience segments.

PROJECTS

Task Management Application
- Built a task management app leveraging React.js and backend technologies.
- Assembled user authentication and authorization functionalities for secure access.
- Deployed application on GitHub Pages for easy access and hosting.

E-commerce Landing Page
- Architected a responsive landing page for an e-commerce campaign using HTML, CSS, and JavaScript.
- Designed informative product showcases, call-to-action buttons, and a user-friendly layout.
- Coded CSS animations and transitions to enhance visual appeal and user engagement.
